How to Get involved On a College Campus

Marcus Royal, Kent Huerta Isaac Washington

February 2025

Why Get Involved?

- Build connections & friendships

- Gain leadership & career skills

- Explore interests & passions

- Open doors to internships & jobs

Join Student Organizations

- Find clubs related to your major or hobbies

- Examples: Engineering Society, SHPE, ASCE, IEEE, Business Club

- Attend club fairs & meetings to explore options

Attend Campus Events

- Career fairs, networking events, guest speakers

- Industry workshops, hackathons, and conferences

- Free food, merch, and valuable knowledge!

Engage in Research & Projects

- Ask professors about research assistant roles

- Join student-led engineering, business, or science projects

- Participate in competitions like robotics, design challenges, or case studies

Connect with Faculty & Alumni

- Build relationships with professors & industry professionals

- Attend alumni networking events

- Seek out mentorship & internship opportunities

Volunteer & Give Back

- Join service groups, mentorship programs, or community outreach

- Giving back strengthens your network & leadership skills
